

Installing Electric Vehicle Chargers in Communal environments

The most common question we get at EV Solutions Group is:

“I want to get an electric vehicle charger(s) at my flat, but can you simplify the process?”

We like a challenge at EV Solutions Group so this flow chart, we hope, does the job

For those looking to expand their knowledge of the above flow chart we recommend reading Electric Vehicle Charging Infrastructure in Communal Living Environments Published by the Institute of Residential Property Management in May 2022 from the link below.
